***REASONS FOR ALLOWANCE***

1. Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

- With regard to independent claims 1 and 3; as the closest reference of record, Ikebe discloses a shutter member used in a cartridge having a case member, the case member including a medium storage section for storing an information medium having an information layer and a window section configured to allow at least a head to be inserted, the head being used to perform a recording operation or a reproduction operation for the information layer, the shutter member comprising: a base member operable to slide along a sidewall of the case member; and a plate member engaged with the base member, which is operable to open/close the window section of the case member in accordance with a sliding motion of the base member, wherein the base member and the plate member are engaged with each other such that the plate member can be removed from the base member; **but fails to show** that characterized in that one of the base member and the plate members includes rotary shafts and the other one comprises bearing sections, whereby the base member and the plate member are removably and rotatably engaged with each other by inserting the rotary shafts in the bearing sections.

- Applicant asset; "the non-rotatable plate section and the rotatable plate section are engaged by rotatably engaging hemispherical depression section and hemispherical protrusion section. For this reason, the engagement strength of the engagement portion may be reduced by the external force applied to the shutter member when the sliding motion of the shutter member its repeated, and the shutter member may easily disassembled at the engagement portion." ([0050]).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
